A MESSAGE TO USERS OF BLUEBIRD PARK (SNELL AVENUE)

Council is planning to improve all parks and facilities within the community, starting from “Bluebird” on our western boundary. Over the past two weeks we have:

- Cleaned algae mattes from the shoreline
- Sculptured the grass area to control mosquitoes while not affecting water absorption
- Removed old discarded steel dock stands and wood
- Installed a second picnic table, and
- Removed the crumbling and dangerous foot bridge.

Over the weeks and months ahead our plans include:

1. Constructing a new foot bridge in partnership with the Trans-Canada Trails Association
2. Refreshing the foot-path
3. Straightening the barrier posts
4. Rebuilding the roadway following the current construction

WHAT WE ASK OF YOU!

- **Join the volunteers with our Parks Committee at 10 a.m. on Saturday June 23rd to help build a new foot bridge.** (Please bring a hammer and/or portable drill)
- Work together to keep the Park shoreline free of algae mattes. (Remember the Alberta Environment regulations require that the work be done manually and you can only reach 1.2 meters into the water)

If you have any questions, contact any member of Council. Thank you.
