

Command 1

Command 1 is a 2013 GMC Sierra 1500 Crew Cab, this truck was bought in 2013 for Chief Kotowich as a mobile command post. This truck responds to any and all calls required in the Town or County of St. Paul. It is equipped with the rumbler siren system that adds vibration to the sounds to alert motorists more efficiently that this apparatus is approaching. This unit has multiple other uses, it has been used to haul SCBA bottles to be refilled, haul hose to be cleaned, move man power and for added traffic control when needed. With the purchase of this unit it allows the Chief to have scene size up and a plan generally before the other units responding make it to scene.
