

## **Councillor Lloyd Jardine**

I was born in Sussex New Brunswick. During school I was an active member of the army cadets and the 8th Hussars Militia Reserve (D&M Sherman Tank). I joined the Canadian Department of Transport when I completed high school. I qualified as an air traffic controller the following year. I worked as a controller in Moncton N.B., Gander and St. John's Nfld., Cornwall and Ottawa Ontario, finally Edmonton Alberta where I retired with almost 34 years' service. I then turned to a more physical trade and became a journeyman electrician. I worked with Garr's Electric in Leduc, Vulcan Electric Edmonton and ATCO Electric Nisku. As an electrician I worked in various locations, Fort Nelson BC., Fort MacKay AB., Fort McMurray AB., Peace River, Slave Lake, and several more.

My wife and I moved to Thorsby ten years ago and built the home where we now reside. We lived at the Lions Campground for one summer while our house was under construction. We lived in our fifth wheel for two winters and three summers. It takes a committed relationship, a sewing machine and cable TV to live 30 months in 180 square feet of living space.

I am looking forward to the challenges and I am committed to moving Thorsby forward.
