

Update Info

Linda and I both attended FOIP Training for Libraries on May 16, very informative. I attended the LMC meeting in Elk Point, every library was given an ipad and a brief tutorial on using LEAP.

We have had a few Fort McMurray residents using the library, mainly for internet access and the children's area. We have waived fees for printing related to insurance claims, etc. I was approached about having a mom's drop in group and offered the space to them on Tuesday mornings.

I am working on Summer Programming and September – December programming for the end of June Programs for People Deadline.

Computer workshops will be offered in partnership with Careers Under Construction in Sept, Oct & Nov.

I will be taking the Parent/Child Mother Goose facilitator training in August and will be co-facilitating a session in Redwater with Cindy Westra from ECDI in the fall.

Library visits to the Lodge will be starting in July, we will be bringing books to the Lodge twice a month.

I am interviewing summer staff this week and next week.

Programs in May/June

1. Book for Babies finished May 19 (7 families registered 3 or 4 attending each week)
