Wastewater Construction Commences in Grandview

On October 16th, construction commenced on our wastewater project. The local collection line was installed in Grandview Heights. The photograph shows the directional drilling unit drilling along Buskmose Drive. After a section is drilled, the pipe is then pulled back through the drilled hole. The trajectory of the borehole is tracked with a sensor (being held by man in orange jacket) and adjusted as necessary by the driller.

Work is also rapidly progressing in Poplar Bay and will soon be in Grandview on Lakeshore Drive. The scheduled completion date for this phase is mid-November. Residents are reminded to drive safely in construction areas.
