Updates

- The United Voice for Alberta Libraries Working Group will be providing a report to LAA regarding the future of the united voice project. To date the chair, Dr. Tanya Pollard (ALTA) has yet to call our next meeting as we are waiting for additional feedback from one of the participating associations.
- Hoopla continues to be very popular and the number of checkouts is now 5 per month in an effort to control costs. NLLS is continuing to monitor the expenditures before they reduce the offerings by format or price point.
- The LMC voted that NLLS keep planning and organizing the Summer Reading Club entertainer because they can negotiate a better price and many libraries do not have the time to make these arrangements.
- I. Cramp and M. Penn will be bringing some of their Makerspace kits to the upcoming February LMC meeting.
