

NLLS REPORT

What's new in IT

- In the past month IT has been busy with preparing new computers to go to libraries and cleaning and repurposing old computers
- Site visits to every library to upgrade Deepfreeze software and confirm updates have just been completed.
- Booking regular site visits for all of our libraries
- Looking into Cloud printing for our libraries, and into a new inventory software to track computers and hardware.
- The Virtual Reality Lab is booked into 2019
