NOTICE TO RESIDENTS

RE: Wastewater Connection Deadline

The Summer Village of Norris Beach passed Bylaw #151 for the Municipal Wastewater Utility in 2017. This Bylaw sets out the requirements and responsibilities related to the installation and operation of the Municipal Wastewater System. The System has been active since September last year.

At this time, 57 property owners have connected and another 13 are in progress.

This leaves 28 property owners who are either on the waiting list with the certified installer, or who have not taken action toward getting connected to the system.

Please note that Bylaw #151 requires that Property Owners connect to the system on or before September 30, 2018.

If you have not yet contacted one of the certified installers to have your tank connected to the system, please remember the deadline. Also, note that the installers are very busy this summer and may need additional lead time.

Thank you for making Norris Beach the first Summer Village on the South Side of Pigeon Lake to be 100% connected to the new system.

Sincerely,

Sylvia Roy, CLGM
Chief Administrative Officer
Summer Village of Norris Beach
