Mayor Chapdelaine explained that he had called the Special Meeting to discuss the current state of the flooding and to determine whether the State of Local Emergency can be terminated.

Director of Emergency Services, Frank Barry explained that the Trevor Tychkowsky, the Regional Director of Emergency Services had reported at 12:30 p.m. that the water had stopped flowing over Township Road 594 and the water has been redirected to flow through the fields east of the Village and not flowing into the Village except for the ditches along the north side of highway 28. He further noted that the water had been re-directed to not flow under 50th street, but to cross under Highway 28 on the east side of 50th Street.
