IT Report for February 2019

- IT has started the roll out of the new wireless access points, Jodi has created a schedule and has shared that schedule with the libraries.
- The first quarterly purchase of computers for our libraries has just completed, we have purchased 26 computers. Our next bulk purchase will be May 24th. *(Quotes and purchases can always be done outside of the scheduled bulk purchases; the bulk purchasing is organized to try and help save our libraries on costs.)*
- The NAO robot has arrived, we are currently working with the software, creating policies and waiting on training before we send him out to our libraries.
- Minecraft labs have been updated and should be easier for general setup for our libraries
- Internet usage: Total usage of bandwidth used for internet for Jan 17 to Feb 17 is 5.5 TB or 5500 GB, this does not include Domain traffic, Polaris or videoconferencing.
