

Canadian Rockies Hemp

Located in Bruderheim, AB.

About Us

An innovative agribusiness specializing in hemp processing strategically located in Bruderheim, AB, looking to become one of the largest processors of hemp in Canada.

We are here to connect the link between both farmers and manufacturers by offering a wide range of hemp services and products.

Locally owned, our team has a diverse background in agronomy, medical cannabis cultivation, industrial design and engineering, land development, legal, pharmaceuticals, and government relations

Why Grow Hemp for Us?

Growing Hemp For Fiber:

Gives farmers an easy, viable crop to add to their rotation

Seed late, harvest early, and not have to worry about combining or drying

Create and support a full chain local industry, diversifying ourselves from oil and gas. Locally grown, locally processed, locally manufactured, and locally sold

Our Contract Options

Hemp Fiber Production Contract

- Contract by the acre, paid by the tonne
- Baled before seed set

Hemp Straw Production Contract

- Contract by the acre, paid by the tonne
- Baled after combine
