

30 m
100 ft Scale 1:1500

Note: Positions of buried facilities shown are derived from interpretations of signals for electronic devices. Reception of electronic signals is subject to interference and false indications. Therefore it should not be assumed that all buried facilities are shown, and facilities shown are shown should not be considered as "located" until physically exposed. All underground installations should be marked by the responsible authorities prior to excavation or demolition. All buried facilities on this map are assumptions based on header labeling, trace wire orientation, or pipeline orientation, referenced from existing documentation. Potential discrepancies may need further investigation.
