

REAR FACING

Birth - age 2+

Children should stay in a rear-facing convertible seat until the height or weight limit has been reached or the child is no longer within the seat's fit restrictions

FORWARD FACING

Age 2 - 5+

Children should stay harnessed until they meet the seat's height or weight limit, the harness is no longer above the shoulders, or their ears are no longer contained within the seat

BOOSTER

Age 5 - 10+

Children are usually mature enough for a booster closer to age 6 and should stay in one until they pass the 5-step test

SEAT BELT

Age 10 +

Once your child can pass the 5-step test, usually between the ages of 10 & 12, they can sit using the adult seat belt alone
