## DEVELOPMENT

12. Naturalized riparian areas and shorelines are important for minimizing impacts on lake water quality and providing fish and wildlife habitat. Do you think there should be a setback from the front property line (lake side) for development (dwellings, boathouses, guest cottages, etc) in the Summer Village?

Yes                       No                       Not Sure

If yes, what should the setback be?

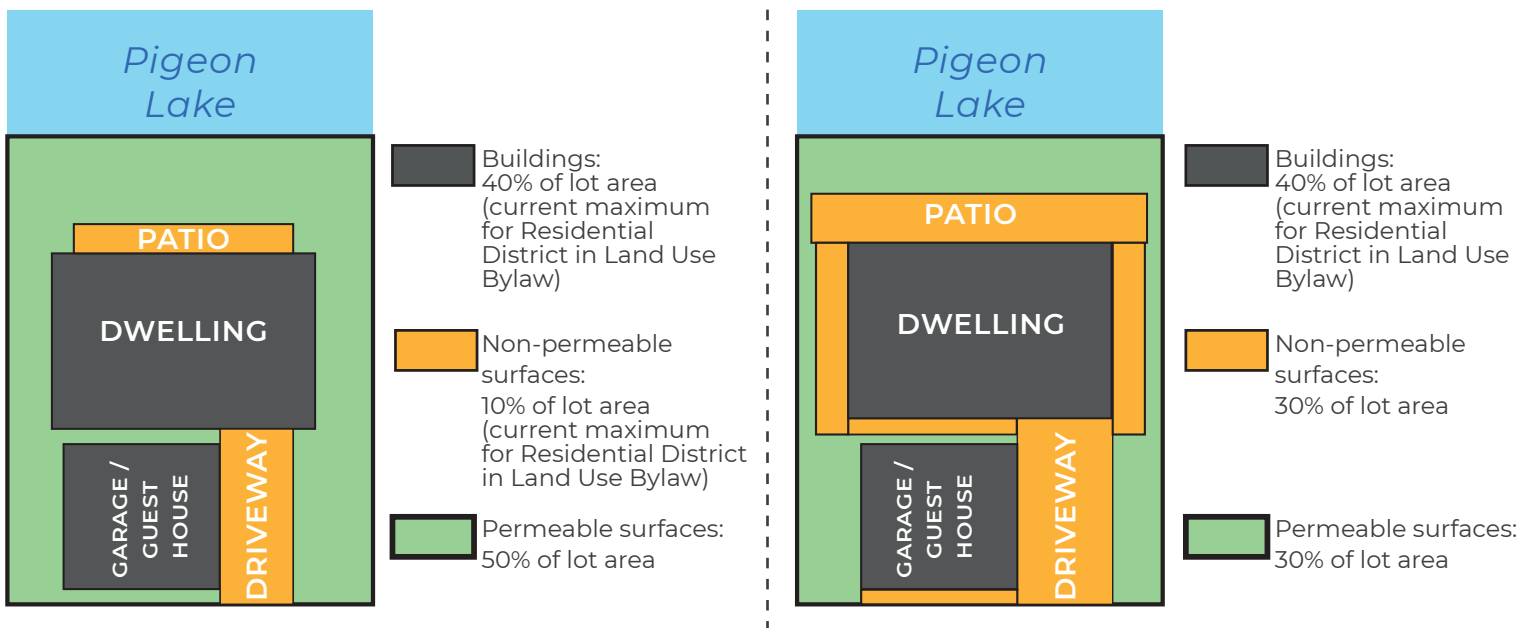

6m             10m (current setback for dwellings)             15m             20m            Other: \_\_\_\_\_

13. **Permeable surfaces** (natural vegetation, grass, shrubs, etc) help prevent runoff from directly entering lake. Do you think the amount of **non-permeable surfaces** (concrete, asphalt, water shedding paving materials, etc) on residential lots should be limited in the Summer Village? This would apply to new development or redevelopment of residential lots.

Yes                       No                       Not Sure

If yes, what is the maximum area of a lot that should be allowed to have **non-permeable surfaces**? This does not include the area covered by buildings. The illustrations below demonstrate two examples: 15% and 30% maximum area for **non-permeable surfaces** on one lot.
