

Changing your Domain Password

Now that you are on the NLLS domain your Polaris and Computer password are the same. In order to change this password you can follow the following steps:

- 1) Click Ctrl + Alt + Del at the same time

- 2) Choose "change password" from the list

Windows 7

XP

- 3) Enter your old password, and then your new password twice

You password must:

- Be 7 or more characters in length
- Contain characters from three of the following four categories:
 - English uppercase characters (A through Z)
 - English lowercase characters (a through z)
 - Base 10 digits (0 through 9)
 - Non-alphabetic characters (for example, !, \$, #, %)
- Not be your Last 6 passwords
- Not contain the user's account name or parts of the user's full name that exceed two consecutive characters
