OVERVIEW

ABOUT LJ AUDIO & VISUAL SOLUTION'S

LJ Audio & Visual Solutions Inc. specializes in the designing and installation of structured cabling systems for Commercial and Residential buildings and offices. Whether the project is within a small boardroom, home theatre, dental/doctor's office or a completely new building, we can provide the copper and fiber cabling needed to connect voice and data across the LAN. We also offer numerous other services making us a one stop shop to complete all of your Structured Cabling, Audio/Visual, Security and Networking needs. LJ Audio is fortunate to have a group of dynamic and dedicated individuals with years of Structured Cabling experience and Data Communication. We take pride in providing complete and professional installations and we know that it is our high standards and quality of work that push us forward as a company every year. Communications form the backbone of every business, we understand this, and work in partnership with all our customers to ensure your requirements are our first priority. When you need something, LJ Audio Visual is here to help and provide the solutions you need. We really look forward to the opportunity to work with you and can draw from a broad range of technologically-advanced solutions including:

- Intrusion Detection and Monitoring
- Sound Systems/ Sound Masking
- Video Surveillance Systems (CCTV)
- Camera Installations
- Card Access System
- Audio/Video Installations
- Inter Office Networking
- Voice and Data
- Fibre
- Nurse Call
- Home Theatre
- Home/Office Controls & Automation
- Patient Wandering

LJ Audio & Visual Solution's has a geographical presence that has your company covered. So, whether your request is big or small, we offer the high quality, affordable and flexible solutions you need.

A BRIEF HISTORY OF LJ AUDIO & VISUAL SOLUTION'S

LJ Audio & Visual Solution's, is a financially sound company that has been in business since 2005 based out of Edmonton, Alberta, Canada. LJ Audio consists of multiple fields as explained earlier and is growing more every day. We are proud to have Secret Clearance from the Canadian Forces. We believe that this value, the value of certainty, is significant. Every day we look at how your world is changing, and every day we invest in developing the innovative products, services and solutions that your business needs to thrive, both now and into the future. We're building on our many years of experience, and investing in the future to continue to deliver world-class service to businesses like yours. We provide Cat5e, Cat6, Cat6A, and fiber cabling along with the tools and expertise for terminations and testing. We are certified by almost all major manufacturers (Belden, Hubbell, Leviton and Panduit). We also specialize in sound system installations, camera systems, networking, card access systems, and video/nurse call as well as patient wandering installations. We are a dealer for Phillips, Onkyo, Hitachi, Sony, Panasonic, Sharp, Polk Audio, Samsung, Draper and more. We also provide all types of A/V solutions for boardrooms/ offices from projectors, electric screens, to video conferencing and more.

LJ AUDIO & VISUAL SOLUTION'S CORE VALUES

Our commitment to the highest standards of integrity begins with ensuring that everyone across the LJ Audio organization understands our core values—values that define how we conduct ourselves—both as LJ Audio employees and decision-makers. We also believe it is important that our suppliers & partners understand and share our core values. These four values are the foundation of the LJ Audio Guide to Ethical Conduct:

- + **Integrity** - We must demand of ourselves and of each other the highest standards of individual and corporate integrity & honesty while adhering to strict and moral ethical codes protecting both our customers and our company as a whole.
- + **Excellence** - We continually challenge each other to improve our products, our processes and ourselves. We strive always to understand our customers' businesses and help them achieve their goals. We are dedicated to diversity, fair treatment, mutual respect and trust.
- + **Teamwork** - We foster an environment that encourages innovation, creativity and results through teamwork. We practice leadership that teaches, inspires, and promotes full participation and career development. We encourage open and effective communication and interaction.
- + **Accountability** - We honor the commitments we make, and take personal responsibility for all actions and results. We create an operating discipline of continuous improvement that is an integral part of our culture.

PRODUCT AND SERVICE OFFERINGS

New and emerging technology offers unmatched ease of use and functionality of products and associated services. LJ Audio installs and maintains numerous technologically advanced solutions.

INTRUSION DETECTION SYSTEMS & MONITORING

LJ Audio's Intrusion Detection Systems help protect your company from robbery and larceny. We offer wired or wireless solutions for a complete intrusion system that often includes standard devices such as motion detectors, glass break sensors, and door contacts to name a few. We also offer hold-up, panic and critical condition signal monitoring services to help give you the peace of mind you deserve. Our Monitoring solutions also help to improve and enhance your company's physical security and business operations. If something happens within your building or office, you will be alerted instantly whether it be by email, text or phone. Allow us to design and offer you a detection system and monitoring services that will protect you and your business 24 hours a day, 7 days a week.

SOUND SYSTEMS/SOUND MASKING

No Sound System is ever the same and we provide numerous options for complete sound system installations whether it is within a boardroom, dental/doctor's office or a complete Paging Address System throughout a building. Let us design and provide an optimal solution for you with our access to an extensive and broad line of products such as TOA, Atlas, Polk Audio, Speco, and Onkyo to name a few. We also offer Sound Masking solutions that uses low-level background noise in an environment to "mask" unwanted noise which is often used in call centers, banks, and offices, allowing employees to focus on their work and maintain speech privacy.

VIDEO SURVEILLANCE SYSTEMS (CCTV)

LJ Audio's Video Surveillance systems can serve as a strong deterrent to help you monitor internal and external theft and fraud within your business. From digital recorders, to networked video solutions, to touch screen systems, and a variety of system monitors, LJ Audio's Security video surveillance Systems allow you to view/monitor multiple areas of your facility from within or outside of your office on a single web-enabled device such as a laptop/PC, iDevice, Blackberry or Android Device.

CAMERA INSTALLATIONS

Purchasing and installing a home or business Analog or IP Based Camera system can be an overwhelming task for someone unfamiliar with the numerous products and options that are available. Components of this process include things like choosing surveillance equipment, setting up recording devices, scheduling timers, and of course the mechanical aspects of installation. We offer, supply and install numerous lines of Analog and IP cameras. Whether you need to have general coverage of a work space or want the ability to read a license plate from a great distance in very low light, we have the knowhow and expertise to provide what you need. We install and provide product lines such as Sony, AXIS, Pelco, and Vivotek to name a few.

CARD ACCESS SYSTEMS

Electronic Access Control solutions from LJ Audio Security help you monitor and restrict access to sensitive or private areas within your business, no matter the size. Access Control Systems can provide assistance with workplace safety plans, help avoid expensive re-keying, and restrict access to sensitive areas.

AUDIO/VIDEO INSTALLATIONS

LJ Audio and Visual provides expert audio and visual installations for residential and small business. From mounting flat-panel televisions to fitting A/V wiring for new construction, we are the company to call. We deliver custom installations that demonstrate top-of-the-line workmanship, reliable technology, and easy to use products.

INTER OFFICE NETWORKING

Let us help you interconnect all of your PCs, Network Printers, Fax Machines, and PoS Machines. Whether it is a restaurant, small or large office we can provide you with networking solutions that are essential in today's working environment.

VOICE AND DATA

LJ Audio & Visual provides a cabling consultancy service to help you choose the right solution for your business needs. We are specialists in the installation and implementation of Category 5e, 6, and 6a Structured Cabling Systems. We provide each installation with a 15 or 25 Year Manufacturer's Warranty, which protects against installation and cable performance defects. Whether you need just 1 additional outlet or you require multi thousand outlets installed, LJ Audio & Visual has the knowledge, experience and expertise to ensure your installation is carried out professionally and to your specifications. Every installation is 100% tested, using the industries latest test equipment.

FIBRE

We have many years of experience in the supply, design, installation, termination and testing of all types of fibre optic cables. Whether you require the supply, installation, termination or testing of Single Mode or Multi Mode Fibre, using ST, SC, FC or LC connectors, you can be assured that LJ Audio and Visual in house qualified installers are equipped with the latest knowledge and equipment to carry out the work to the highest standard. We offer solutions for Multimode Fibre (OM1, OM2 and OM3), Singlemode Fibre (OS1), Tight Buffered and Loose Tube constructions as well as Fibre to the Desk (FTTD) installations.

NURSE CALL

Healthcare facilities as part of the hospital design process almost always require some kind of Nurse Call System which includes patient-to-staff and staff-to-staff calls when the need arises. Let us Install a complete system that provides two-way audio and visual signaling between nurses and patients, as well as providing a means of communications between the nursing staff. We are trained installers of Telecor Communication systems which is a company that produces a range of innovative and high quality communications products.

HOME THEATRE

We provide complete services for your Home Theatre Installations integrating both Sound as well as Video. Whether you want something small and compact or something more sophisticated, we can help design and install the Home Theatre of your dreams. We supply and install TVs (42"-90") as well as video projectors and screens, high end Blu-ray/DVD player(s), Amplifiers with multiple Inputs/Outputs, in wall speakers and subwoofers. No two Home Theatres are the same. Let us help design and install a perfect system for you.

HOME /OFFICE CONTROLS AND AUTOMATION

LJ Audio has the means and expertise to install Control systems giving you the ability to access, provide schedules and "Control" numerous devices within your home or office. Whether it is lighting controls, heating controls, Alarm Systems or even Electronic Blinds; LJ Audio can provide a complete system that will give you the control that you want from within your home/office or while on the road.

PATIENT WANDERING

LJ Audio's RFID based security solutions are efficient, modular and flexible. Features include item identification, asset and personnel tracking and people counting. These systems are ideal suited for retail and health-care environments.

SERVICE AND SUPPORT

LJ Audio & Visual Solution's supports your company's imperative for standardizing service levels by offering service and support programs that are extensive and selective. LJ Audio & Visual Solution's service department offers service personnel/ technicians with standardized training.

Service standards are paramount – to better meet the needs of its customers, each LJ Audio & Visual Solution's technician offers normal service hours from 8:00 AM to 4:30 PM Monday through Friday excluding Holidays. Emergency service is available 24 hours a day, 365 days a year.

We want to safeguard your investment and LJ Audio & Visual Solutions has the Service Department to respond to any of your day to day needs no matter how.

SUMMARY

LJ Audio & Visual Solution's is positioned to be your complete and total solutions integrator offering your business everything that you need.

At LJ Audio & Visual Solution's, we can help you protect what matters most, when it matters most. Thank you for putting your trust in us.

At LJ Audio & Visual Solution's, we offer proactive service solutions that give you convenience and peace of mind when it comes to your home or business.

OWNERSHIP

LJ Audio & Visual Solution's makes it affordable to install the right system. Choosing a system or systems for your home or business at a price you can afford can be challenging. With so many different companies offering so many choices, it can be hard to tell the difference between the best value and the faster, cheaper one. Too often, quality and peace of mind are compromised for affordability or doing whatever is "easier", and the results can be inadequate and very disappointing to say the least. LJ Audio & Visual Solutions is the company that won't let you down. We look forward to working with you in the near future.
